1. D/Security requested this issue be formalized. I'd appreciate your review and any modification, addition, or comment you care to make on it before I send it to [REDACTED] who wants to take it to the Acting Director today.

3. Pls don't try to rearrange any order of events in the briefings. It still seems logical and appropriate to obtain a secrecy agreement only at the end of the briefing, once you have imparted the significance and sense of sensitivity of the material. It would be appropriate, however, to emphasize a bit that access to the substantive material is conditioned on a nondisclosure agreement.

4. Pls act quickly on this.
